Profile

Full-Stack Web Developer with over 3 years of experience in front-end development and growing expertise in back-end technologies including C# and .NET. Skilled in building responsive and user-centric web applications with Angular and integrating secure, scalable APIs. Passionate about continuous learning and emerging technologies — currently exploring AI development and tools like ChatGPT, Cursor, and other LLM-based platforms. Strong problem-solver with a keen eye for detail and a love for building intelligent and interactive user experiences.

Professional Experience

2016/03 – 2019/03

Medical Analysis Specialist

Reviewed and analyzed medical data, wrote reports, and made recommendations based on findings.

2022/05 – 2024/09

Frontend Developer

TachyHealth 📄

- Developed new user-facing features using Angular.
- Designed and implemented web pages, balancing functional and aesthetic elements.
- Collaborated with designers, back-end developers, and project managers to meet project requirements and deadlines.

2024/09 – present

Full-Stack Developer

TachyHealth

- Designed and developed full-stack features using **Angular** on the front end and **ASP.NET** 📄 **Core Web API** on the back end.
- Integrated RESTful APIs with Angular services using **HttpClient** and handled secure token-based communication.
- Developed **SQL Server** database schemas, queries, and stored procedures for data management.
- Contributed to internal tools and dashboards that improved the workflow of medical data processing and visualization.

Education

2014/09 – 2015/06

Diploma of Biochemistry

Damietta, Egypt

Faculty of Science Mansoura university

2007/09 – 2010/06

Bachelor's degree

Damietta, Egypt

Faculty of Science Mansoura university

Languages

• Arabic

• English

Skills

Programming Languages

HTML,CSS,JavaScript,ES6

● ● ● ● ●

Responsive Design

● ● ● ● ●

CSS Preprocessing

SASS

● ● ● ● ●

Front-end Frameworks

Angular

● ● ● ● ●

Version Control

Git and GitHub

● ● ● ● ●

Backend:

C#, .NET Core, ASP.NET [☑](#) MVC, RESTful APIs, Entity Framework, SQL Server

● ● ● ● ●

Soft Skills:

Problem Solving, Troubleshooting, Teamwork/Collaboration

● ● ● ● ●

Other Tools:

Postman, Swagger, Firebase, UiPath (RPA)

● ● ● ● ●

Projects

E-commerce Microservices Platform [☑](#)

- Designed and implemented a **modular e-commerce system** using **microservices architecture** with individual services for Authentication, Products, Shopping Cart, and Coupons.
- Used **MongoDB** as the database for each service, ensuring scalability and flexibility in data management.
- Built APIs for each microservice using **ASP.NET [☑](#) Core**, each managed in separate projects.

Online Bookstore API [☑](#)

- Developed a secure, scalable **RESTful API** using **ASP.NET [☑](#) Core** for an online bookstore platform.
- Implemented **JWT-based authentication** and **role-based authorization** using **ASP.NET [☑](#) Identity** for Admin/User access control.
- Integrated **Entity Framework Core** to interact with **SQL Server**, enabling smooth data management..

Jumia Clone [☑](#)

- Developed a clone of Jumia, an online shopping website, using HTML, CSS, JavaScript, Angular, and Firebase.
- Implemented responsive design and user authentication.

IMG [☑](#)

- Developed an animated and interactive project using GreenSock Animation Platform (GSAP), Swiper, TypeScript, Angular, Bootstrap, and SASS.
- Enhanced user engagement with smooth animations and transitions.

Todo List [☑](#)

- A feature-rich Todo List application built with Angular and TypeScript, designed to help you manage your tasks efficiently.

Interests

Artificial Intelligence & LLMs:

Exploring practical applications of Large Language Models like ChatGPT in development workflows, automation, and user experience enhancements.

Developer Tools:

Actively using and experimenting with AI-powered tools such as **Cursor**, **GitHub Copilot**, and **ChatGPT** for productivity and smart code suggestions.

Automation:

Enthusiastic about **RPA tools** such as **UiPath**, integrating intelligent automation into software solutions.

Certificates

- Free code camp Responsive Web design [☑](#)
- Great Learning Robotic Process Automation RPA [☑](#)
- Front-end Development Libraries React [☑](#)
- Legacy JavaScript Algorithms and Data Structure [☑](#)
